From Innovation to Supply

Plant-Based Ingredients for Beverage Applications

Harnessing allergen-friendly, high-protein benefits.
Overcoming formulation challenges.

Plant Powered Proteins • Sweeteners • Dairy Alternatives

Axiom Foods, known as the world's largest and most innovative manufacturer and distributor of organic, patented, chemical-free, hexane-free and allergen-friendly **Oryzatein**[®] Brown Rice Protein since 2005, is now capable of meeting your beverage application needs with our versatile product lines. These not only include the **Oryzatein**[®] Rice Protein, but also **VegOtein P**[™] Organic Pea Protein, **Incatein**[™] Sacha Inchi Protein and now **Cannatein**[®] Organic Hemp Hearts Protein, plus whole grain dairy milk-substitutes for most any beverage requirement.

Axiom Foods Ingredients for Beverage Functionality

Axiom Foods' plant-based proteins work best in Low Acid environments and with gums to aid in solubility. High Acid formulations work best when using low amounts of plant-based proteins as they have been shown to denature in high acid and heat environments.

ORYZATEIN®

VEG-O-TEIN™

INCATEIN™

ORYZ-O-LAIT™

AVENOLAIT®

ORYZA™

Product	Low Acid pH 7.0 heated to >240F <i>Refrigerated and Aseptic</i>	High Acid pH <3.5 heated to >180F
